PHYSICAL THERAPY

Acadia St. Landry Hospital's outpatient physical therapy program goal is not just recovery; it's the restoration of functionality and the enhancement of your overall quality of life. Whether you're aiming to regain mobility after surgery or manage chronic pain, our physical therapy program is designed to help you achieve your personal milestones.

Regain strength, mobility, and confidence with our Physical Therapy sessions. Whether you're recovering from an injury, surgery, or managing a chronic condition, our PTs will tailor exercises and techniques to improve your flexibility, balance, and muscle function.
